

Product Development Workshop

How do we turn scientific insight into actual drugs and products? The FAILSAFE Product Development Workshop is designed to give you the tools and knowledge necessary to plan the journey from lab discovery to drug approval and ultimately patient impact.

Through this interactive, fully funded workshop, you'll learn how to craft a Target Product Profile (TPP) and how to use this to design a clear Product Development Plan — essential elements for translating innovation into tangible health solutions.

Date: 18th February 2026

Delivery: Online
