How to use the search function in the FAILSAFE Medical Mycology Network directory

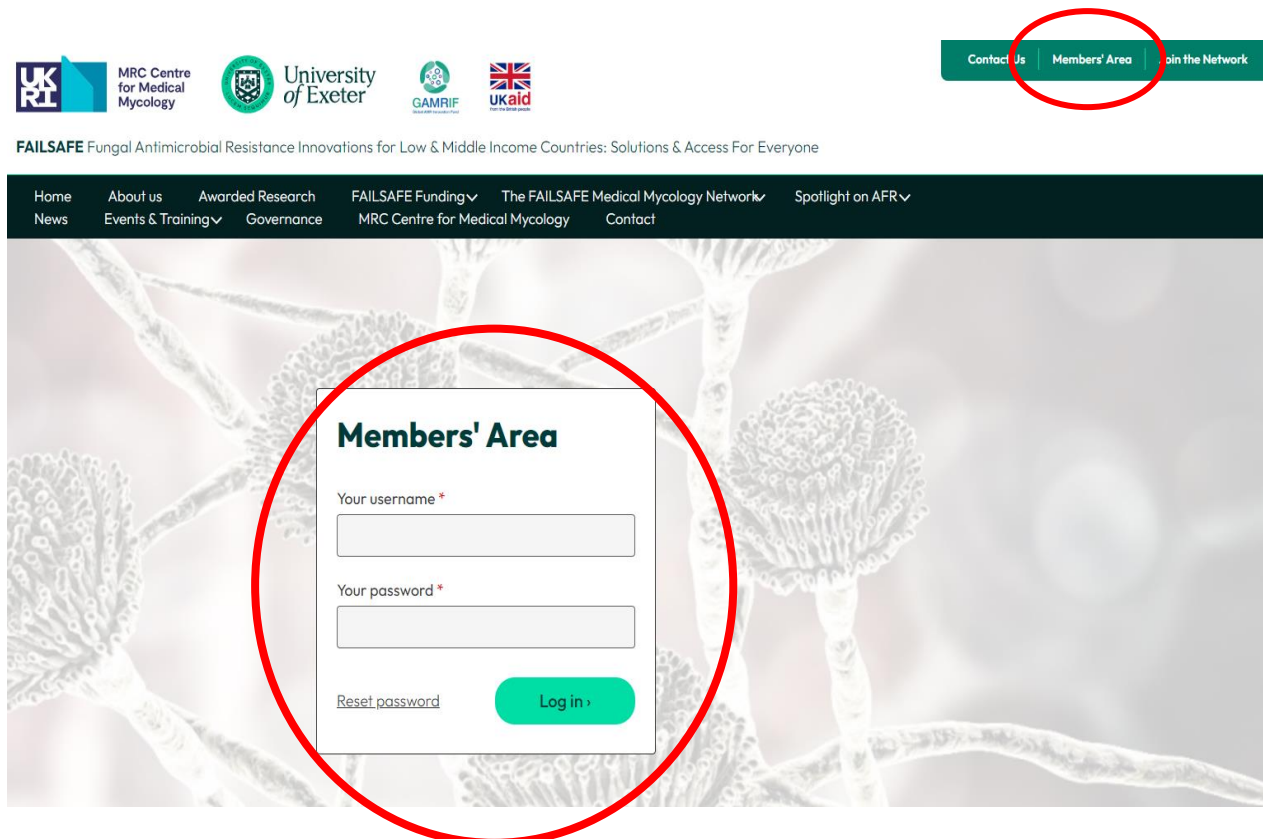

1. Navigate to the login page of the FAILSAFE website

- Click on the **Members Area** tab located in the top-right corner of the FAILSAFE website, or select **The FAILSAFE Medical Mycology Network** from the main navigation bar (as shown in the screenshot below) and select **Members area**. Alternatively, you can click [this link](#) or enter it directly into your web browser <https://cmm-failsafe.com/members-area/>.

2. Login to the member's area

- Enter your username and password.
- Click **Login**.

4. Directory

- Once logged in, you will enter the members' area. Here, you can click on the Members Directory button located on the right hand bar or the members page.

Members' Area

Welcome to the FAILSAFE Medical Mycology Network Member Area!

We're thrilled to welcome all network members to this dedicated space. Our goal here is to **foster collaboration**, making it easier for you to connect, share, and work together in advancing the fight against antifungal resistance. This Member Area is designed to support you in finding collaborators across academia and industry who share your interests. Here, you'll find opportunities to connect with others who can help bring your ideas and research to life through strategic partnerships, including support for grant applications and collaborative projects.

Here's what you can look forward to in this area:

- **Member Search Function:** You can search for other members based on location, research focus, and more. This feature aims to help you quickly find the expertise you need, whether nearby or internationally.
- **Bulletin Page:** Share and discover exciting opportunities here! You're welcome to post announcements about upcoming events, training schemes, and calls for collaboration, as well as upload videos and share your project ideas. It's a great place to invite others into your work or join in on their projects.
- **Content Sharing:** We encourage you to share any interesting content that could benefit the community. This could include articles, blogs, videos, or tools you've created, as well as valuable external resources you've discovered. By sharing, you're contributing to a dynamic knowledge exchange and fostering collaboration within the community.

Welcome, Holly

5. Search the Directory

- In the Members Directory, you can use the map or search function to locate members.
- When using the search function, the menu allows you to **filter by Institution, Country, Sector, Research Interests, and more**. You can also search using **keywords or names**.
- After making your selections or entering your key word, click the **Search** button to view the results. If you need to start over, use the **Reset** button to clear your selections.
